FOR MORE THAN 45 YEARS THE GREATEST NAME IN TRUCKS

# Don't Contribute to Counterfeiters KNOW YOUR MONEY!

# Don't Be Fooled by Forgers KNOW YOUR ENDORERS!

**The Government never redeems counterfeit money!**

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine one of the same type and denomination. Observe these things:

**PORTRAIT** *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

*Genuine*—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

**COLORED SEAL** *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

*Genuine*—Saw-tooth points around rim are even and sharp.

**SERIAL NUMBERS** *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

*Genuine*—Figures firmly and evenly printed, well spaced.

**PAPER** *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

*Genuine*—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER. NOT ALL STRANGERS ARE COUNTERFEITERS. BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Published in Cooperation with United States Secret Service Treasury Dept.

# The Services of R. L. Polk & Co.

## DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

## DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is complete . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*

## NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvases. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for mailgraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

## AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

## SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvases, are provided by the Polk Consumer Research Division.

## POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

MISHAWAKA DIRECTORY OF HOUSEHOLDERS (1949)

## POLK'S MISHAWAKA

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

### 1949

Copyright, 1949, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The & preceding names denotes houses and places of business having telephones.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

**ANY BABIES BORN TODAY?**

If you have a product or a service for the baby market you will want to know to whose home new babies have been delivered. Through R. L. Polk & Co. you can obtain lists of all births. This information is available either nationally, or in metropolitan New York and northern New Jersey. The date of birth, name or sex of the child, parents' name, street and city address, and telephone number (if desired) can be provided. Keep up with the baby market through this unique list service.

# Why A BUYERS' GUIDE?

It is customary to include a Buyers  
Guide in the City Directory because:

It gives business firms the opportunity to  
elaborate upon a description of their products  
and services impossible in the limited space  
of regular Alphabetical and Classified listings.

THE BUYERS' GUIDE IS A NECESSARY SUPPLEMENT TO THE  
REGULAR LISTINGS; IT IS GOOD CITY DIRECTORY INFORMATION  
... EXTENDED
